

PARCS UPDATE #111 – Feb/ 2020 – The Issue of Transparency

This newsletter went out to all cottage communities (both members and non-members).

The newsletter addressed the issue raised by the Saskatoon Star Phoenix and the Regina Leader Post about whether municipalities were living up to government expectations for transparency, based on a poll they conducted with all 774 municipal governments in Saskatchewan – quoting the Minister of Government Relations.

The newsletter that went to Resort Villages included a feedback poll about RV resources for answering requests for information (office location and hours, office staff, and website). The PARCS Board intends to share the information from the poll with the Ministry of Government Relations.
