

PARCS UPDATE #115 – March, 18, 2020 – This newsletter is a follow-up to PARCS Update #111 that went out on Feb. 16th – when we sent out survey questions to each of the 41 resort villages. The survey asked administrators to describe the size of their community, their village office location and days open, their staff and public documents, and their website. This newsletter provides a summary of the **survey results**, along with some “questions to ponder” arising from those results.
