

PARCS UPDATE #117 – March, 31, 2020 – This newsletter, asks “*Is the cottage the best place to self-isolate?*” The newsletter quotes the premiers in Ontario and Quebec who are forbidding cottage owners from their visiting cottage country during the pandemic. If you do decide to head out to your cottage, please consult the guidelines we provide from Dr. Theresa Tam (Canada’s Public Health Officer) telling you how to do so in the safest of ways. This newsletter was also sent to cottage community non-members, as a courtesy.
