

**PARCS UPDATE #128** – August 2, 2020 – This newsletter, titled “*Here’s what resort villages reported on their plans for their election*” summarized the answers to the recent survey, showing that about  $\frac{3}{4}$  of RVs were having an election for councillor(s) while only  $\frac{1}{2}$  were having an election for mayor. Of those having an election, about half were planning to use mail-in ballots and about  $\frac{2}{3}$  were planning for an advance poll (but almost none planned to avail themselves of the new day-before date for that poll. This newsletter was shared with the Ministry of Government Relations.
